INDEX OF SUBJECTS FOR VOLUME 29

Abscess
  dento-alveolar, 167
  intra-abdominal infection model, 269
  synergy of *E. coli* and *B. fragilis*, 269
Actinobacillus actinomycetemcomitans
  in plaque-related infections, 165, 168, 169
Actinomyces
  A. israeli, cervico-facial actinomycosis, 168
  A. viscosus, role in dental caries, 163
Actinomycosis, cervico-facial, 168
Adherence
  C. albicans, inhibition of mechanisms, 181
  immunodiagnostic test for typhoid, 195
  V. cholerae to intestinal wall, 33
Aeromonas spp.
  protein fingerprinting, 29
  radiolabelling of whole-cell proteins, 29
  silver staining of whole-cell proteins, 29
Agglutinins, of *L. interrogans*, 115
Aggregation
  bovine platelets by *F. necrophorum*, 13
Aminoglycosides
  interactions with 4-quinolones, 221
  resistance of *P. aeruginosa*, 41
Aminopeptidase activity
  Neisseria spp., 251
Antibiotic resistance
  aminoglycosides and *P. aeruginosa*, 41
  chloramphenicol and *H. influenzae*, 263
  impermeability mechanism, 41
  polymyxin and *P. aeruginosa*, 41
Antibiotics and other antimicrobial substances
  aminoglycosides, interactions with 4-quinolones, 221
  4-quinolones, interactions with other antibacterials, 211
  4-quinolones and the SOS response, 139
  susceptibility tests for gram-positive cocci, 277
  treatment of dento-alveolar infections, 168
Antibodies
  against *L. interrogans*, 115
  against rickettsial diseases, 199
  against *S. typhi*, 195
  against *U. urealyticum*, 111
  against *V. cholerae*, 33
  see also Monoclonal antibodies
Antigens
  in cryptococcal meningitis, 189
  hepatitis B virus markers, 243
  leptospiral, immunogenic, 115
  outer-membrane proteins of *V. cholerae*, 33
  rickettsial, in serodiagnosis, 199
  in serotyping of *E. coli*, 95
  in serotyping of *M. morganii*, 89
  S. typhi, in IgM-capture test, 195
  T-proteins of pyogenic streptococci, 207
Antisera, against *V. cholerae*, 33
API ZYM system, 203
ATP bioluminescence test, 277

Bacteriocin typing, *M. morganii*, 89
Bacteroides
  B. fragilis, epidemiology in colonic cancer, 171
  B. fragilis, intra-abdominal infection model, 269
  B. fragilis, reciprocal synergy with *E. coli*, 269
  B. gingivalis, in periodontal disease, 166
  B. gracilis, comparison with *B. ureolyticus*, 63
  B. ureolyticus, characterisation of clinical isolates, 63
  in dento-alveolar infections, 167
  in periodontal disease, 166
Bioluminescence tests, 277
Biotyping
  C. pylori, 203
  epidemiology and phylogeny of salmonellae, 81
Blood, coagglutination by *C. burnetii*, 9
Burns patients
  pyogenic streptococcal infections, 214

Campylobacter
  C. pylori, biotyping system, 203
  enteritis, milk-borne, 239
Candida
  C. albicans, biotypes in genitourinary patients, 51
  C. albicans, inhibition of adherence, 181
  survey in genitourinary patients, 51
Cell cultures
  cytotoxicity of *F. ulcerans*, 177
Cerebrospinal fluid, CSF
  diagnosis of cryptococcal meningitis, 189
Chloramphenicol
  acetyltransferase activity, 263
  resistance of *H. influenzae*, 263
Cholera, 33
Chromatography
  gas-liquid, 63
  high performance liquid, 263
  pyrolysis-gas, 19
Circulating immune complexes, hepatitis B, 243
Coagglutination
  of blood, by *C. burnetti*, 9
  procoagulant activity of mononuclear cells, 9
  test for cryptococcal meningitis, 189
Cocci, gram-positive
  ATP bioluminescence tests, 277
Colonic cancer patients
  epidemiology of *B. fragilis*, 171
Colonic mucosa, *B. fragilis* in, 171
Colon lavage fluid, *B. fragilis* in, 171
Complement components, and hepatitis B, 243
Corynebacterium ulcerans, milk-borne, 240
Coxiella burnetii
  endocarditis, 9
  procoagulant activity of mononuclear cells, 9

Creutzfeldt-Jakob agent, 145
Cryptococcus neoformans
coagglutination test for meningitis, 189
Culture medium
for novel replicating agent, 145
Cytotoxicity of *F. ulcerans*, 177

Dental caries, 161
immunisation and, 164
management, 163
microbiology, 161, 164
Dento-alveolar infections, 167
clinical presentations, 168
microbiology, 167
treatment, 168
DNA
responses to 4-quinolones, 139
restriction analysis, 255
SOS repair system, 139

Electroblotting
iron-binding proteins of *H. influenzae*, 121
Electronmicroscopy
analytical, 1
cell-wall composition of *G. vaginalis*, 229
freeze-etching, 229
infected kidney stones, 1
invasiveness of *S. typhimurium*, 283
platelet aggregation by *F. necrophorum*, 13
scanning, 13, 229, 283
silver resistance of *E. coli*, 101
stomach-associated spiral-helical bacteria, 55
transmission, 1, 55, 101, 229, 283
ELISA, antigens of *V. cholerae*, 33
Endocarditis, *Coxiella burnetii*, 9
Enteritis, milk-borne, campylobacter, 239
Epidemiology
B. fragilis, in colonic cancer, 171
biotyping of salmonellae, 81
Escherichia coli
characterisation, 95
fimbrial serotypes, 95
intra-abdominal infection model, 269
mannose-resistant haemagglutination, 95
in meningitis, 95
plasmids, 101
4-quinolones, effects of, 139, 221
reciprocal synergy with *B. fragilis*, 269
silver resistance, 101
in urinary tract infections, 95

Faeces
epidemiology of *B. fragilis*, 171
isolation of novel replicating agent, 145
Fibrin, and Q fever endocarditis, 9
Food-borne infections, 93
Freeze-etching, 229
Fusobacterium
in dento-alveolar infections, 168
F. necrophorum, aggregation of platelets, 13
F. necrophorum, haemagglutinin, 13
F. ulcerans, cytotoxicity, 177
F. ulcerans, in tropical ulcers, 177
in periodontal disease, 166

Gardnerella vaginalis
cell-wall chemical composition, 229
cell-wall ultrastructure, 229
Gastric bacteria
spiral-helical, in mouse model, 55
see also Campylobacter
Gastritis
C. pylori, 203
spiral-helical bacteria, 55
Genital tract infection
U. urealyticum in mouse model, 111
Genitourinary patients
Candida spp. and *C. albicans* biotypes, 51
Gingivitis, 165
Glomerulonephropathies
presence of hepatitis B virus markers, 243

Haemagglutinating activity
E. coli, 95
F. necrophorum, 13
mannose-resistant, 95
Haemolytic activity, of *E. coli*, 95
Haemophilus influenzae
chloramphenicol resistance, 263
iron-binding proteins, 121
Helical bacteria *see* Spiral-helical bacteria
Hepatitis B virus markers
antigens, 243
association with glomerulonephropathies, 243
circulating immune complexes, 243
complement components, 243

Ileal fluid
-dependent organism, IFDO, 145
isolation of novel replicating agent, 145
Ileal loops
immunoprophylaxis against *V. cholerae*, 33
Immune response
to *M. tuberculosis* RNA-protein, 131
Immunisation
against *S. mutans*, and dental caries, 164
hamsters against *L. interrogans*, 115
mice against *M. tuberculosis*, 131
Immunoblotting
immunogenic antiserum to *V. cholerae*, 33
methicillin-resistant *S. aureus*, 255
Immunofluorescence microscopy
platelet aggregation by *F. necrophorum*, 13
Immunoglobulins
IgG response to *L. interrogans*, 115
IgM, anti-hepatitis B virus antigens, 243
IgM capture test, and typhoid, 195
IgM response to *L. interrogans*, 115
Intestinal tract
adhesion of *V. cholerae*, 33

B. fragilis, associated with colon, 171
mucosa, invasiveness of *S. typhimurium*, 283
novel replicating agent from, 145
Iron-binding proteins in *H. influenzae*, 121

Kidney stones (infected), ultrastructure, 1

Lactobacilli, in dental caries, 163
Lactoferrin-binding proteins in *H. influenzae*, 121
Leptospira interrogans
immunisation of hamsters, 115
lipopolysaccharide antigens, 115
polysaccharide antigens, 115
Lex A gene products, 139
Lipopolysaccharide (LPS)
antigens of *L. interrogans*, 115
G. vaginalis, analysis of, 229
Liposomes, phosphatidylcholine
M. tuberculosis, immunisation protocol, 131
Listeriosis, milk-borne, 241
Ludwig's angina, 168
Lymphadenitis, staphylococcal submandibular, 168

Mannose-resistant haemagglutination, 95
Mediterranean spotted fever, 199
Meningitis
characterisation of *E. coli* isolates, 95
cryptococcal, diagnosis, 189
Metabolism-inhibition test
U. urealyticum, 111
Microscopic agglutination test
L. interrogans, 115
Milk-borne infection, 239
campylobacter enteritis, 239
heat-treatment failure, 241
salmonellosis, 239
staphylococcal "food-poisoning", 241
Monoclonal antibodies, against *E. coli*, 95
Mononuclear cells
procoagulant activity with *C. burnetii*, 9
Morganella morganii
bacteriocin typing, 89
serotyping, 89
Morganocin
production and sensitivity of *M. morganii*, 89
Mouse model
genital tract infection by *U. urealyticum*, 111
immunisation against *M. tuberculosis*, 131
stomach-associated spiral-helical bacteria, 55
Mycobacterium tuberculosis
immunisation protocol using liposomes, 131
RNA-protein, 131

Nalidixic acid, and the SOS response, 139
Necrotising fasciitis, 168
Neisseria
N. polysaccharea, phenotypic relationships, 251
phenotypic relationships, 251
Neutrophils
inhibition of adherence of *C. albicans*, 181
Novel replicating agent
from human intestinal tract, 145

Oestradiol
in mouse model for *U. urealyticum*, 111
Organ culture
gut mucosa, and *S. typhimurium*, 283
Outer membrane
P. aeruginosa, and resistance, 41
proteins, of *V. cholerae*, 33
Oxidase activity, of *B. ureolyticus*, 63
Oxygen radicals
inhibition of *C. albicans* adherence, 181

PAGE
F. ulcerans, 177
see also SDS-PAGE
Pasteurisation, 239
Periodontal disease, 164
Actinobacillus actinomycetemcomitans, 165
Bacteroides spp. in, 63, 166
characterisation of *B. ureolyticus*, 63
microbiology, 164
Periodontitis, 165, 166
Peritonitis model, 269
synergy of *E. coli* and *B. fragilis*, 269
Phage typing, salmonellae, 83
Pharyngitis, streptococcal, 211
Phylogeny
biotyping techniques, 85
of salmonellae, 85
Plaque-related infections, 161
dental caries, 161
dento-alveolar infections, 167
periodontal disease, 63, 164
plaque metabolism, 163
Plasmids
chloramphenicol resistance of *H. influenzae*, 263
silver resistance of *E. coli*, 101
Platelets, aggregation by *F. necrophorum*, 13
Polymyxin resistance, of *P. aeruginosa*, 41
Polysaccharide
antigens of *L. interrogans*, 115
production by *Neisseria* spp., 251
Proteins
fingerprinting, *Aeromonas* spp., 29
iron-binding, in *H. influenzae*, 121
outer-membrane, of *V. cholerae*, 33
radiolabelling, of *Aeromonas* spp., 29
RNA-protein of *M. tuberculosis*, 131
silver staining, of *Aeromonas* spp., 29
in SOS response to 4-quinolones, 139
T- protein antigens, of streptococci, 207
Pseudomonas aeruginosa
adaptive resistance to aminoglycosides, 41
outer membrane, 41
Puerperal sepsis, pyogenic streptococci, 216
Pyrolysis-gas chromatography, 19
Pyrolysis-mass spectrometry, 63

Q fever, 9
4-Quinolones
  interactions with other antibacterials, 221
  SOS response in *E. coli*, 139

Radiolabelling
  whole-cell proteins of *Aeromonas* spp., 29
RecA gene products, 139
Recombination repair system, 139
Renal biopsies, and hepatitis B virus, 243
Restriction analysis, 255
Rickettsia
  cross-reactions of immune sera, 199
  R. conorii, serodiagnosis, 199
  R. rickettsii, serodiagnosis, 199
RNA-protein, of *M. tuberculosis*, 131
Rocky Mountain spotted fever, 199

Salmonella
  biotyping, 81
  epidemiology and phylogeny, 81
  phage typing, 83
  S. agona, biotyping, 85
  S. ealing, milk-borne infection, 241
  S. montevideo, biotyping, 81
  S. paratyphi B, biotyping and phylogeny, 85
  S. typhi, IgM antibodies, 195
  S. typhimurium, biotyping, 81
  S. typhimurium, invasiveness in gut mucosa, 283
  S. typhimurium, phage typing, 83
  S. typhimurium, phylogeny, 85
  S. typhimurium, virulence factors, 283
Salmonellosis, milk-borne, 239
Scrapie agent, 145
SDS-PAGE
  iron-binding proteins of *H. influenzae*, 121
  phenotypes of *Neisseria* spp., 251
  silver resistant *E. coli*, 101
  in typing of *Aeromonas* spp., 29
Serotyping
  M. morganii, 89
  P-fimbriae of *E. coli*, 95
  streptococcal T-protein antigens, 207
Serum
  diagnosis of cryptococcal meningitis, 189
  hepatitis B virus markers, 243
  immunodiagnosis of typhoid, 195
Silver
  resistance in *E. coli*, 101
  staining, of *Aeromonas* spp., 29
Skin sepsis, and pyogenic streptococci, 211
Slime production, and kidney stones, 1
Slow viruses, 145
Soft tissue infection
  characterisation of *B. ureolyticus* isolates, 63
  see also Plaque-related infections
SOS response, and 4-quinolones, 139
Spiral-helical bacteria
  mouse model for colonisation, 55
  stomach-associated, 55
Spirochaetes, in periodontal disease, 166
Staphylococci
  milk-borne "food-poisoning", 241
  S. aureus, antimicrobial susceptibility, 277
  S. aureus, bioluminescence tests, 277
  S. aureus, DNA restriction analysis, 255
  S. aureus, immunoblotting, 255
  S. aureus, methicillin-resistant, 255, 277
  S. aureus submandibular lymphadenitis, 168
  S. hominis, milk-borne, 241
Streptococci
  pyogenic, Lancefield groups C and G, 207
  serotyping, and T-protein antigens, 207
  S. equisimilis, clinical isolates, 207
  S. milleri, in dento-alveolar infections, 167
  S. milleri, pyrolysis-gas chromatography, 19
  S. mutans, in dental caries, 161
  S. mutans, vaccine, 161
  S. sanguis, pyrolysis-gas chromatography, 19
  S. zooepidemicus, milk-borne, 240
  viridans, pyrolysis-gas chromatography, 19
Struvite stones, 1

Transferrin-binding proteins
  in *H. influenzae*, 121
Treponema spp., in periodontal disease, 166

Ulcerative gingivitis, 165
Ulcers
  characterisation of *B. ureolyticus* isolates, 63
  leg, and pyogenic streptococci, 216
  peptic, *C. pylori* in, 203
  tropical, and *F. necrophorum*, 177
Ureaplasma urealyticum
  effects of oestradiol on colonisation, 111
  pathogenicity in mouse model, 111
Urease activity
  B. ureolyticus, 63
  in infected kidney stones, 1
Urethritis, non-gonococcal
  B. ureolyticus isolates, 63
Urinary tract infection
  characterisation of *E. coli* isolates, 95
  serotyping of *E. coli* isolates, 95
  ultrastructure of infected kidney stones, 1

Vibrio cholerae
  immunoprophylactic antiserum, 33
  intestinal adhesion, 33
  outer-membrane proteins, 33
Virulence factors
  E. coli, 95
  F. necrophorum, 13
  S. typhimurium, 283

Wolinella recta
  comparison with *B. ureolyticus*, 63

Yersiniosis, milk-borne, 241

INDEX OF AUTHORS FOR VOLUME 29
